PROFESSIONAL SUMMARY

Motivated Bachelor of Information Technology (BIT) student currently in the 8th semester at Gandaki University with strong interest in innovative technology solutions and practical application development. Experienced in developing academic and practical projects using JavaScript, PHP, Firebase, MySQL, React Native, and Android Studio. Passionate about problem-solving, learning new technologies, and developing user-friendly applications for real-world challenges. Seeking an internship opportunity to enhance technical knowledge, practical experience, and problem-solving abilities in the IT field.

EDUCATION

Bachelor in Information Technology (BIT)	Gandaki University	Running (8th Semester)
+2 Science	Srijana Secondary School	Grade B
SEE	Srijana Secondary School	Grade A

TECHNICAL SKILLS

Programming & Web Development	HTML5, CSS3, JavaScript, PHP, Bootstrap, MERN (Full Stack Developer)
Mobile App Development	Android Studio, React Native, Java, TypeScript
Database & Backend	MySQL, Firebase, Supabase
Tools & Platforms	Git, GitHub, VS Code, Figma
Professional Skills	Problem Solving, Team Collaboration, Adaptability, Communication, Creative Thinking

ACADEMIC PROJECTS

WallpaperHub

- Developed wallpaper sharing and downloading platform
- Implemented authentication and image categorization system
- Added search, upload, and download functionality

Technologies: HTML, CSS, JavaScript, PHP, MySQL

Online Voting System for Class Representative Selection

- Developed secure web-based voting system for academic use
- Implemented authentication and real-time vote counting
- Created result visualization and admin management system

Technologies: HTML, CSS, JavaScript, PHP, MySQL

File Sharing System

GitHub: <https://github.com/RohitRanaMagar/file-sharing-system>

- Developed system for secure file sharing
- Implemented user authentication and access control
- Enabled upload, download, and sharing of files

Technologies: Node.js, Express, MongoDB, React

Pirate AR Treasure Hunt

GitHub: <https://github.com/RohitRanaMagar/project>

- Developed Augmented Reality (AR) game for treasure hunting
- Integrated AR features for immersive experience
- Designed interactive puzzles and challenges

Technologies: Java, Android Studio, ARCore

Tato Aalu - Multiplayer Potato Passing Game

- Developed multiplayer Android game with real-time interaction
- Added score tracking and interactive gameplay UI
- Used Git and GitHub for collaboration and version control

Technologies: Android Studio, Java, Firebase Realtime Database

Hamro Electronic E-commerce Webpage

- Developed e-commerce platform for electronic products
- Implemented product catalog, shopping cart, and checkout process
- Designed user-friendly interface for online shopping

Technologies: MERN Stack (MongoDB, Express, React, Node.js)

WORKSHOPS & LEARNING

- Laravel
- Bootstrap
- AWS
- Django
- Figma
- Artificial Intelligence & Machine Learning Basics

ADDITIONAL INFORMATION

- Strong interest in innovative technology solutions and application development
- Quick learner with ability to adapt to new technologies
- Familiar with teamwork and collaborative project development
- Interested in contributing to innovative and technology-driven projects
- Seeking internship opportunities in IT and application development fields
